(a) The Increase under the Head of Pay to Porters, Warders, &c. from the year 1809, arose in part from some addition having been made to the Wages of these Persons; but chiefly from the adoption of the new System of carrying on the Duties of the Board by Committees, which rendered it requisite to add to the number of Messengers and Runners, for the necessary and expeditious delivery of Letters to all Accountants, Pursers, their Agents and Securities who have Accounts outstanding, or Debts owing to this Department, in order that these Accounts might be brought to a speedy conclusion and the Debts be effectually recovered. The apparent further Increase in the year 1811, was occasioned by the Wages of the Watermen being paid by the Clerk for paying Contingencies, instead of being placed on the Quarter Book, as had previously been the practice.

The Decrease after the year 1811, resulted from a gradual Reduction in the number of Persons employed; and they will be further diminished as fast as the public Duties will admit.

expended during the last Ten Years, under the Head of CONTINGENT CHARGES, in distinguishing all Sums above £. 200.

and placed in the Contingent Account of this Office,

These Sums were constituted of Pay to Porters, Warders, Messengers, Fire-lighters, Watchmen, Runners, Office-keepers, Charwomen, and Watermen;
Postage of Letters and Packets on Public Service;
Stamps for Public Contracts, Bonds, &c.;
Parliamentary and Parochial Taxes;
Land Tax on Salaries and Pensions;
Travelling Expenses;
Public Advertisements;
Payments to Clerks preparing Documents for the Board of Revision, in the years 1806 and 1808;
And various other Services.

(b) The cause assigned for the above-mentioned Increase after 1809, applies also to the Increase in the amount of Postage of Letters.

(c) The Payment of the Land Tax was discontinued after 1810, in consequence of its being found that His Majesty's Order in Council, directing the Salaries of this Office to be paid without deduction, rendered their Salaries no longer liable to that Tax. The apparent Increase in the year 1809, arose from the sum of £. 2,704 having been paid in that year, but which should have been paid in 1808; and the Decrease in the year 1810, from one Payment only having been made before the above Order was acted upon.

BESIDES the foregoing Expenses, the Country Distributers of Stamps have been allowed Credit in their Accounts for certain necessary Disbursements, such as Postage, Carriage of Parcels, Stamps for Remittance Bills, Advertising Stamp Office Notices, and Newspapers delivered, pursuant to the 38th Geo. III. and for ascertaining the Duty on Advertisements. The annual Amount of these several Particulars can only be obtained by extracting them from the Accounts of the Distributers, sixty-seven in number, for each of the ten years, which it would take a considerable time to do, without interrupting the current business of the Office. And as the Disbursements of very few of the Distributers amount to £.200 in a year, and we are not quite sure that these Disbursements fall within the scope of the Order, we have thought it better not to delay making our Return, so long as we should be obliged to do, for the purpose of inserting them.

(A) Compensation for Fees to be abolished. (B) Excesses of old Salaries.

* Mr. Harrison, by his letter of the 21st January 1822, states, that in the event of the Fees being abolished, their Lordships will have under consideration the propriety of granting to the Persons at present holding those offices a further Compensation for the loss of their Fees. The sums here inserted are the proportion of the Fees not provided for by the future Salaries, which will be lost in the event of the abolition of them, and the Contributions to the Superannuation Fund are estimated thereon.

As the Amount of Salary and Allowances paid to those Officers who receive day pay, fluctuates according to the number of days during which they are employed, it is impossible to state, with certainty, the Amount of the Tax on that Class of Officers, or to fix what proportion of them may be called upon to contribute to the Superannuation Fund for the year 1822; but the Salaries and Allowances paid during the year 1821 to those Officers, who, by the day pay they received, would have been rendered liable to the Tax, according to the proposed Scale, having been £. 20,091 18s. it has been thought proper to assume the amount of the Tax on Officers who receive day pay generally at 2½ per cent on the said sum.		20,091 18 –	20,091 18 –	502 5 11

N° 31.

GENERAL POST OFFICE.

To the Right Honourable the Lords Commissioners of His Majesty's Treasury.

MY LORDS,

WE have the honour to transmit the various Returns called for by your Lordships Minute of the 8th of January last, which would have been completed at an earlier period, but for the necessity of consulting your Lordships upon certain points connected therewith.

We have not filled up the forms for 1822, as the Establishment of the General Post Office from the commencement of that year, does not, in any respect, differ from that which existed "prior to the end of the Christmas Quarter in 1821;" and we trust that the letter which we addressed to your Lordships on the 30th September last, contrasting the nature and circumstances of the Department in the years 1797 and 1821 respectively, will have afforded satisfactory reasons for our inability to place it upon a system in any respect similar to that existing in 1797.

It will be seen that certain of the officers, in addition to their established duties, have others to perform; but your Lordships will be pleased to observe, that these secondary appointments (if such they can be called) have been made solely with a view to economise the public expenditure. The duties do not interfere with those of the principal office held by the parties, who are selected on account of their peculiar fitness, and as a reward for good conduct. They are performed at a very low rate; and whilst the emolument derived from them adds to what otherwise would be an inadequate salary, we avoid the necessity of making separate and distinct appointments for the purpose, at a great and decided expense to the public.

The amount to be contributed by each individual to the formation of a Superannuation Fund, is in all instances calculated upon the existing salaries and official emoluments of the officers, with the exception of the Clerks of the Roads in the Inland Office, and the Comptroller and Deputy Comptroller of the Foreign Office.

The Six Clerks of the Roads derive their incomes from the profits on the sale of newspapers in Great Britain and Ireland, which, although formerly nearly an exclusive privilege, has been, for many years past, thrown open to the public; and these officers have now no advantage whatever over the regular newsvenders. The ages of the three Seniors vary from 64 to 66 years, and they have been 52 years in the service. The others have each served from 40 to 48 years, and their ages vary from 54 to 62; consequently, they may be expected to apply for retirement in the course of a very short period.

As we presume that each individual, upon retirement, would be entitled to an allowance in proportion to the per centage contributed by him to the formation of the Fund, it appears to us that a contribution to the extent of their incomes, in this particular class, would not only entail a very heavy expenditure upon the revenue, but would give the parties a claim to a retirement allowance infinitely greater than we should have felt justified in proposing under the Act of the 50th Geo. 3d, c. 117, and beyond that to which their services could entitle them.

We take leave to request your Lordships to refer to our letter of the 3d of October last, in reply to the first Minute on Superannuations, in which we have stated the principles that have governed the Postmaster General in proposing allowances of this nature; and particularly adverting to the cases of this class of officers, and to repeat what has been stated on former occasions, that it would not be just to grant to officers with mere mechanical duties, not requiring any particular exercise of faculty or intellect, the same quantum of Superannuation Allowance we should feel justified in proposing for those who have devoted talent and ability to the service, and to whose situation were attached arduous and responsible duties.

The duties of the Clerks of the Roads are not of this latter description. We have, therefore, felt ourselves called upon to view their cases specifically and distinctly, with the object of defining the allowances which it may be fair and reasonable to grant, in the event of their retirement, and according to which they ought to be called on to contribute to the Fund.

We have adverted to the precedents sanctioned by your Lordships in former cases, of the retirement of officers of this class; and it appears to us, that, in consideration of the age, length of service, and emoluments

of

of the parties, none of whom have attained these appointments until after a service of 40 years, Five Hundred Pounds per annum may be taken as a fair and reasonable Superannuation Allowance, upon which they should be called on to contribute.

We consider that a distinction should be drawn in the case of one of these officers, who is also Superintending President of the Inland Office, and in whom the immediate control of this Department has been vested for many years. His duties are constant and arduous; and it appears to be merely an act of justice, that in addition to the sum we have submitted, of £.500. as Clerk of a Road, his separate allowance of £.230. as Superintending President, or Comptroller of the Inland Office, should be taken into consideration, and that his contribution should be calculated accordingly.

It may be necessary here to state, that, in the year 1815, we sanctioned an arrangement, according to which, as vacancies occur, these districts or roads will be sub-divided into eighteen, to correspond with the mail coaches, and which will go in aid of the present inadequate salaries to the Senior Officers of the Inland Department. As this regulation depends on the number of vacancies, its effects, though progressive, must be slow, and many years must elapse before it can come into full operation.

With respect to the Foreign Office, although the emoluments are now considerable, they were, for several years, much inferior to their present amount.

The Comptroller receives no salary, and the income of Deputy Comptroller is principally made up from emoluments; and in regard to their contribution to the Superannuation Fund, we are of opinion that it would not be consistent with any sound principle that a Retirement Allowance should be calculated upon the present high produce of a contingent and fluctuating emolument. We have, therefore, adverted to the case of the late Comptroller, who was superannuated in the year 1796; and it appears to us, that the sum on which his allowance was then calculated (viz. Twelve hundred pounds), may be fairly taken as the principle upon which the present Comptroller should be called upon to contribute; and we have accordingly taken his assessment upon the sum of £.1,200.

The Deputy Comptroller of this Department is a most efficient officer, and has constant and laborious duties to discharge, which are chiefly to be performed at unseasonable hours; and with a reference to those duties, and to the case of the Superintending President of the Inland Office; and in consideration of the fluctuating nature of his income, we propose that his contribution should be calculated upon £.800.

In conclusion, we beg leave to refer to the communications we have, at various times, had the honour to make to your Lordships, in proof of our constant and earnest desire to act in the spirit of the Treasury Minute of the 14th August 1817, enjoining the principle of a more economical provision for the performance of duties, as vacancies occur.

We are,

My Lords,

With great Respect,

Your Lordships most obedient Servants,

General Post Office, 20th March 1822.

(Signed) *Chichester.*

THE Names of Officers and Amount of their respective Salaries, are given in the Account, N° 2; and as to the "Scale of Increase for length of Service," and "Maximum and Minimum Salary," those particulars seem not applicable to the Scots Department, where no such Scale has ever been known (as a general rule), or of course introduced or acted on; though it may be proper to notice, that some of the in-door Officers have served for such a length of time as there is reason to believe would have long since entitled them, under the late or existing Scale, to a higher salary than they now enjoy. It may be added, that there are no fees or extra payments of any kind.

Two districts vacant, to wit, Ross-shire 3d district, and Renfrewshire 3d district.

N. B. The travelling expenses of the Resident Surveyors are defrayed out of the salaries.

Note referred to in preceding page.—It is proper to state, that the salary of 90*l.* to William Robson was recommended by the Comptroller by mistake; as upon consideration of the duties and responsibility of his office, as well of the progressive rate of decrease among the Clerks, he meant to recommend 100*l.* salary, but the first letter of recommendation, to wit, that for 90*l.* was transmitted to London in place of the second, which ought to have been transmitted. It will be for the re-consideration of the Treasury, whether this mistake should not be corrected and the salary of 100*l.* allowed.

The Comptroller is very unwilling to mention any thing that may be supposed to lead to any increase of the expense of the establishment, but it is no more than just to state, that, considering the increased labour of the Clerks, occasioned by the different new regulations in regard to the Assessed Taxes, as well as the additional accounts required under those Acts and the Composition Act, the salaries are low, they are so certainly in comparison with others of a similar kind; not above one-half of those of the Clerks in the Remembrancer's Office of Exchequer.

MR. OLDHAM is the only individual in my office to whom this Order can possibly apply; he holds two situations (but they are both in the Department) under the following circumstances: he entered the Office as a Junior Clerk so far back as the Year 1772, with a small Salary, which from time to time has been increased to £. 500 per annum. In the Year 1793, the situation of Deputy Judge Advocate General, with a Salary of £. 200, was conferred upon him according to an arrangement then made for increasing his Salary; the Salary of the Deputy was augmented in 1797 to £. 400 per annum, at which amount, the two situations of Deputy and Chief Clerk now stand, and were received in the last year; viz.

First Clerk	£. 500
Deputy J. A. General	400
	£. 900 per annum.

These two situations are to be separated, as recommended by the Commissioners of Military Inquiry in their Eighth Report in 1809, whenever an opportunity offers by vacancies, of making a new arrangement of this Office.

Note:—In the similar return made to the Board from this department, on the 25th May last, in pursuance of the Order of the House of Commons of the 25th April preceding, the two following officers were returned as under; but as those officers are under the immediate and sole cognizance of the Barons of Exchequer, it is presumed their situation and offices will be reported in the return made from that court.

D°	Thomas Kyd	1810: April 10.	220 — —	220 — —

The Comptroller subjoins a return made by him to the Barons of Exchequer, though he was doubtful whether the Order of the House of Commons applies to his case as he has only *one commission*, that of Comptroller of Taxes, the office or rather employment, which he holds or exercises of *sworn clerk in the court of Exchequer* not being by commission, but merely an admission by the Barons to exercise the business of a clerk in Court, in which the employment depends on the choice of the clients. That return specifies the particulars required; the receipt last year being the same as in former years, and of the amount specified in the said return.

Name.	Appointment, Allowances, or Pensions.	Date of Appointment, or Grant.	Annual Amount of Salary, Allowance, or Pension.
Edmund H. Lushington, Esq.	First Commissioner of Colonial Audit -	21 January 1818	£.1,000. The present first Commissioner, upon his appointment as second Commissioner in November 1814, relinquished a pension which had been granted him by His Majesty, for his services, first as Puisne Judge, and subsequently as Chief Justice in Ceylon.
	His Majesty's Coroner & Attorney in the Court of King's Bench - - - - -	6 July - 1813	Salary £.10. per annum, paid out of the fines received for the Crown. The emoluments from other sources, which, however, are not paid by the Public, vary, but amounted in the last year to about £.1,160, which was much beyond the usual average.
Mr. Lewis Gibson -	Inspector in the Colonial Audit-Office -	19 June - 1818	£.380.
	Pension from Ceylon Civil Fund * -	1 January 1814	£.400.

* When the Government of the Colony of Ceylon was transferred from the East India Company to the Crown, this fund was established, under the authority of His Majesty's Government, by a subscription from the Civil Officers of the Colony, at their individual option, of one tenth of their salary, to which an equal sum was added on the part of the Government, from the colonial treasury, and the whole was vested in trustees. The subscribers to this fund became entitled, on retiring from the colony, after twelve years service, to a pension proportioned to the salary enjoyed by them at the period of their retirement. Some alterations having been made in the original regulations, the subscriptions are now paid into the colonial treasury at Ceylon, and the pensions are paid by the agent of the colonial government in this country; under this arrangement, it has been thought necessary that the pension received by Mr. Gibson from the fund should be returned, under the Order of the Honourable House of Commons, although it is evidently rather an annuity which has been purchased, than a pension.

For adding His Majesty's Consuls abroad; the Officers of the Naval College and School for Naval Architecture; the Clerks of the Audit Office Court of Exchequer Scotland; the Army Medical Office in Ireland; the Department of the Commander of the Forces in Ireland; and the Department of the Board of General Officers in Ireland,—to the List of Contributors to the SUPERANNUATION FUND:—In pursuance of the Act of 3 Geo. 4. c. 113.

N° 1.—Authority for adding His Majesty's Consuls Abroad, to the List of Contributors to the Superannuation Fund.

TO all to whom these Presents shall come, greeting: Whereas by an Act passed in the third year of His Majesty's reign, c. 113, intituled, "An Act to amend "an Act passed in the fiftieth year of his late Majesty, for directing that Accounts "of increase and diminution of public salaries, pensions and allowances, shall be "annually laid before Parliament, and for regulating and controlling the granting and "paying such salaries, pensions and allowances;" it is amongst other things enacted, "That it shall be lawful for the Commissioners of His Majesty's Treasury, by any order or warrant signed by the said Commissioners, or any three or more of them, to add to the List of offices and departments enumerated in the Schedule to this Act, any other offices or departments which now exist, or which may hereafter be created or established, and to place the same, and the offices and persons belonging thereto, or employed therein, under the provisions of this Act, provided that in every case, the reasons for adding any such office or department shall be stated in such order or warrant, and a copy of every such order or warrant shall be laid before Parliament:"—And whereas the claims of His Majesty's Consuls, who after many years service in foreign parts have, from age or infirmity been rendered incapable of continuing such services, have in several late instances been recognized by Parliament, we are of opinion, with reference to the power vested in us by the seventh section of the above recited Act, these persons should be added to the List of offices and departments enumerated in the Schedule of the said Act; and We do hereby authorize and direct, that His Majesty's Consuls Abroad be called upon to contribute to the Superannuation Fund, in the same manner and upon the same principle, as if these persons had originally been inserted in the said Schedule. N° 2.—Authority for adding the Officers of the Naval College and School for Naval Architecture, to the List of Contributors to the Superannuation Fund.

TO all to whom these Presents shall come, greeting: Whereas by an Act passed in the third year of His Majesty's reign, c. 113, intituled, "An Act to amend an "Act passed in the fiftieth year of his late Majesty, for directing that Accounts of "increase and diminution of public salaries, pensions and allowances, shall be "annually laid before Parliament, and for regulating and controlling the granting "and paying such salaries, pensions and allowances;" it is amongst other things enacted, "That it shall be lawful for the Commissioners of His Majesty's Treasury, by any order or warrant signed by the said Commissioners, or any three or more of them, to add to the List of offices and departments enumerated in the Schedule to this Act, any other offices or departments which now exist, or which may hereafter be created or established, and to place the same, and the officers and persons belonging thereto,

				This Office having been established under the Act of 54 Geo. 3. for five years, was subsequently continued, and eventually made permanent by the Act of 1st & 2d Geo. IV. c. 121. Previously to the year 1824 the Board only had cognizance of the Accounts of the Governments of Ceylon, the Mauritius, the Cape of Good Hope, Malta and Trinidad; in that year the Accounts of six other Colonial Governments were referred to this Department; its establishment was thereupon increased, and settled by Treasury Warrant of 20th July 1824, which at the same time granted certain additions to the salaries of the several classes under the Commissioners for length of service. No reduction therefore of numbers or amount of salaries on this establishment either has taken place, or has been directed to be made as vacancies occur.

Previous to 5th January 1822, a scale of increase of salaries, according to length of service, existed in this office, which operated more favourably to the clerks on their promotion to higher classes, than the scale adopted from that date, as under the new scale the attainment by increased length of service of the maximum salary of each class has been procrastinated. The effect of this alteration has, on the whole, been a greater diminution in the aggregate amount of the salaries in the years between 1821 and 1829, than in the year 1829.

				From the 5th January 1829, the Clerks of the Solicitor's Department, (seven in number), were placed by the Lords of the Treasury, under the authority of their warrant, dated 30th May 1829, on the Establishment of the Tax Office, at salaries to the amount of £.1,220 per annum, which are not included in the annexed account. The sums paid to these clerks for years prior to 1829, have been considered as a part of the incidental expenses of the office, and are included in the accounts made up for those years, under the head of Law Charges. The sums paid in 1821 were £.330.

* In 1822, the charge of paying the Foreign Half Pay and Pensions was transferred to the Pay Office from the office of Mr. Disney, whereby a saving was effected to the Public, of about £. 2,000 per annum; and the Retired Full Pay and other Services were in 1823, transferred from the Department of Widows Pensions, to that of the Foreign Half Pay, it being found impracticable for that Department, (the duties of which were otherwise increased) to conduct so many services as were under its charge.

‡ By a Scale of Salaries established in 1810, every Clerk on the Establishment became entitled, by a progressive increase, to £. 400 per annum, after 24 years. This Scale was abolished in 1822, and the one substituted has, at this time, occasioned to the Junior Clerks a considerable deduction from what the amount of their Salaries would have been, had the former Scale continued, and becomes each year greater.

§ The increase of business that has at various periods taken place in the Office, has been chiefly provided for by an increase, not of the Establishment, but of the number of temporary Clerks, of which there were in 1814, thirty-four, which number, as the business upon which they were employed has permitted, has been reduced to ten. By this arrangement, the Public has been saved from a large amount of Retired Allowances, as of the nine Clerks discharged since 1821, only one is in the receipt of a Retired Allowance.

None since 1821: *See* Column of Remarks.	None in contemplation: *See* Column of Remarks.	These numbers are the same as they were in the Year 1792, and were so reduced in the Years 1816-17-18; the salaries of each individual having, in the course of these Years, been brought down to the Peace Establishment as regulated by the Treasury in 1805, and being in amount of Pay and Emoluments much less than those enjoyed by the same description of Officers in 1792. In the Year 1825, the Pay of the Quartermaster General would have been, under the Treasury Minute of 1805, as follows; viz. Pay as Quartermaster General, £. 4 per day - - - £. 1,460 – – Pay as Lieutenant General on the Staff, £. 4 per day - 1,460 – – £. 2,920 – – So that the Pay of this Officer may be fairly considered as reduced, by the difference between that sum and the sum he now receives. The Pay of the Deputy Quartermaster General was also, according to the same authority, at that period, £. 1,095 per annum, exclusive of Allowances; and the Pay of the Assistant Quartermaster General was then also £. 365 per annum. Exclusive of the Reduction of Salaries above adverted to, the following Officers in the Quartermaster General's Department, at Head Quarters only, were discontinued during the Years 1816-17-18; viz.

4	546		

The business in this Department has very materially increased since 1821.

In June 1821, there were 60,744 Out-Pensioners, and the amount paid in the year £.951,902. 19. $-\frac{1}{4}$.

In December 1829, there were 85,724 Out-Pensioners, and the amount paid in the year was £.1,323,570. – 1 $\frac{1}{4}$.; making an increase of 24,950 Pensioners, arising from the transfer to this Establishment of the Kilmainham Pensioners in the year 1822, and from the reductions which have since taken place in the Army and Militia.

Increase 3	270	

The correspondence in 1829 was increased by above 18,000 letters, as compared with 1821; and the number of Affidavits received and entered in the year 1829, exceeded by 90,000 those received in 1821, and the personal appearances were increased in the same proportion.

The alterations in the Books, and re-computation of the periods of service and rates of Pension, in cases of men reverting to the Out-Pension from the Veterans (above 12,000 since 1821) as well as in the cases arising out of the investigations which have been in progress during the last eighteen months, have prevented any reduction being made in the strength employed; but it is proposed, as soon as the pressure of business arising from these investigations shall cease, to continue the course adopted in 1828, of not filling up vacancies occurring among the temporary Clerks.

In the Agent's Office, although there appears an increase of two junior Clerks on the Establishment, it is to be observed, that three temporary Clerks have been discontinued since 1821.

All the payments made by that Department are upon authorities issued through the Secretary, and amounted, as above stated:—

In 1821 - - to - - £.951,902. 19. $-\frac{1}{4}$.
In 1829 - - to - - 1,323,570. – 1 $\frac{1}{4}$.

Increase 2	180	
5	450	Total Increase.

The duties of the Office have much increased since 1821, but the number of Persons employed will be reduced whenever the business will admit of it.

There is no increase of Salary in either of the Offices, promotion entirely depending upon vacancies occasioned by death or resignation.

No reduction has been made in the strength of this Department since 1821, there having been, since that period, no diminution, but on the contrary, an increase of the business performed therein, both as connected with the administration of the Prize Fund, and also as connected with the expenditure of the Hospital establishment. The Board of Commissioners have ordered, that whenever the state of the business will allow of a reduction being made, a report thereof be forthwith made to them.

The amount of Salary depends upon the number of years each person may continue in each situation; and the actual amount of Reduction cannot therefore be stated.

* THE Figures which have been inserted in this column shew the difference between the Salaries now received and the Salary which would be attached to each situation, supposing the persons employed to have remained in office for the same number of years as those now in the Office, each of whom is now entitled, from length of service, to receive the maximum attached to each Class.

As the classification of the office, and the scale upon which its officers should be remunerated, were entirely altered in 1821, it is impossible to state, against any one office, the Reduction effected by any detached or particular portion of that general arrangement. Upon comparing, however, the results of the two columns for 1821 and 1830 respectively, it will be seen, that there are now four persons less employed in this Establishment than in 1821; and that the annual Charge upon the Public is less at present than it was in 1821, by £. 3,558. 1. 8¼.

Besides the above cases there are several others of officers, who, having had the charge and payment of troops, have rendered accompts of their expenditure, and who, upon the examination of their accompts, have been charged with certain payments made by them erroneously to officers and men under their charge: and no case has been included in this return, in which, in consequence of the accompts being still under examination, no balance has yet been struck as due to the public.

AN ABSTRACT of the Monies actually received and paid by the Government, for BALANCES declared since 27th November 1815 (when the Arrear Department of the War Office was first formed) on the Accounts of Regimental Agents, and Regimental and District Paymasters, for Periods prior to 25th December 1810; and of the Amount of Balances now due on those Accounts; and showing whether such Balances are good or bad Debts: Also, a Statement of the whole Expense of the Department employed on those Accounts since 27th November 1815; distinguishing the Amount for Establishment and that for Retired Allowances, in each Year.

Total Amount of BALANCES received by the Government (as per Return)	£. 782,884 8 3
Total Amount of BALANCES paid by the Government (as per Return)	£. 483,221 3 7
Total Amount of BALANCES now due to Government -	£. 151,106 - 10
Total Amount of BALANCES now due by Government -	£. 61,321 2 10

MEMORANDA showing whether the Balances are good or bad Debts:

£. 25,519 6 11	On the Accounts of the late Messrs. Ross & Ogilvie, Army Agents, Bankrupts. The adjustment of these Balances is deferred until certain investigations into the Agent's Ledgers, now pending, shall be completed. The amount of the Agent's Assets is not yet correctly ascertained, but there is good reason to suppose that they will be sufficient to discharge a considerable proportion of this Debt; and the respective Colonels of Regiments are liable to the remainder.
20,818 18 5	On Accounts of the late Mr. H. Donaldson. The whole of the existing Estate of this Agent has been taken by the Crown, and it is valued at £. 15,000.
537 3 -	On Accounts of the late Mr. William Gilpin, Bankrupt,—a Dividend of whose Estate is expected to produce about Ten Shillings in the Pound.
5,192 19 6	On Accounts of Mr. Alexander Bruce, Bankrupt. This Debt, it is expected, will be wholly recovered from the proceeds of the Bankrupt's Estate.
24,084 9 3	Due from Armstrong & Smith. In aid of the public claim against these Agents, £. 6,786. have been recovered; it is not probable that any proportion of the remaining Balance will be recovered.
350 16 7	On Accounts of Messrs. W. & J. Ogilvie, Bankrupts. Expected to be recovered from the Colonel of the Regiment.
2,067 10 4	Due from Mr. E. Howard, Bankrupt. Not recoverable.
3,172 2 -	On Accounts of Messrs. Chrystie & Shaw, who died insolvent. This is partly recoverable from debts due to the Agents' Estate, and from Colonels.
3,697 6 -	On Accounts in the late Colonel William Browne's Agency. Expected to be wholly recovered from the Agent's Estate.
323 4 1	Due from Mr. James Lindsay. Not recoverable.
987 1 1	On the late Mr. Henry Kelly's Accounts. £. 548. recoverable; the remainder not recoverable.
787 2 3	On Accounts of the late Mr. John Ridge. A part is expected to be recovered.
1,455 4 1	Due from Captain Robert Hall, on Accounts of the Devon and Cornwall Fencibles. In course of liquidation, and expected to be wholly recovered from suspended Half-pay.
1,260 15 6	On Accounts of the late Mr. William Bownas. The Debt is acquiesced in by the Agent's Representative, and expected to be shortly recovered.
£. 90,253 19 -	This Total exceeds the difference between the Amount of Balances now due to Government and the Amount of Balances due by Government, stated above; because on the unadjusted Accounts of one particular Agent (Mr. Macdonald), there is a Sum due by Government, viz. - - £. 469. 1s. 0d.

STATEMENT of the whole Expense of the Department employed on these Accounts; distinguishing the Amount for Establishment, and that for Retired Allowances, in each Year.

	£. s. d.	£. s. d.	£. s. d.	
1816	8,577 15 10	- - -	8,577 15 10	*A.*—IT is to be observed, that a proportion of the Sums included in the Total for Salaries, would have been chargeable under the head of Pensions, if the Arrear Department had not existed, and the individuals composing it had been placed on the Pension List.
1817	10,580 19 3	- - -	10,580 19 3

1820	10,214 17 8	750 - -	10,964 17 8	*B.*—THIS is the Amount which has been issued on account of Pensions to Persons who, at the time of their retirement, belonged to the Arrear Department; but it is to be observed, that such Pensions were granted for Services which commenced long previously to 27th November 1815, when the Arrear Department was formed.

THE purchase of, and addition to the Storehouses in London, were necessary for the purpose of receiving and inspecting the Supplies. It has prevented all expense of Wharfage, and much of that of Lighterage, and also enabled the Public to carry on the Packing which was formerly done by private houses, on which alone a Saving of upwards of 30 per Cent has been effected.

Previous to the purchase of, and additions to the Storehouses at Portsmouth, an annual rent was paid of £. 1,000, for Buildings which would contain 1,900 Tons. They will now contain 8,000 Tons.

The Storehouses at Plymouth are the Buildings formerly occupied by Prisoners of War, and given over to this Department by the Admiralty.

The Storehouses at Perth are under the same circumstances. The alterations and repairs to each were necessary to adapt them to their present use.

The above sum of £. 112,795. 17 *s.* 4½ *d.* is also included in the Amount of the Contingent Expenses of the Department in the Return N° 2.

STOREKEEPER GENERAL'S DEPARTMENT.

STATEMENT OF RENTS PAID FOR STOREHOUSES,

From the Establishment of the Storekeeper General's Department to the present Date; showing also, what would have been the present Annual Rent on the System previously pursued.

AVERAGE RENT per annum paid for Storehouses, from the Establishment of the Department to 24 December 1818 - - - - -	£. 3,517. 13. 6.
The present Rent, estimated on the System pursued previous to the Establishment of the Storekeeper General's Department, would be - -	£. 4,333. 6. 8.
Difference in favour of the Public - - - - -	£. 815. 13. 2. per annum;

IN addition to which, all Expenses formerly incurred for Wharfage and Cartage, are saved; a sufficiency of Store-room is obtained for carrying on the duties of Inspection on the part of the Public of the Supplies, a duty which was not performed previous to the Establishment of the Storekeeper General's Department; and Government is enabled always to have in readiness and to send from this Country, Stores of all descriptions, which were formerly purchased abroad at much higher prices, thereby effecting a great diminution of Expense to the Public.

The Storehouses required in London are necessarily very large; the value of the Stores inspected, and for the proper quality of which the Storekeeper General is reponsible, from the year 1809 to the present time, is nearly £. 7,500,000.

STATEMENT OF THE EXPENSE OF LIGHTERS, WHARFAGE, SHIPPING AND LANDING EXPENSES,

Previous to those Duties being performed by the Storekeeper General's Department, compared with the present time.

Charges paid by the Public prior to the Establishment of the Storekeeper General's Department:

Expenses of Shipping, per Package; viz.

		S.	D.
Loading and Cartage	0	0	4
Wharfage	0	0	6
Lighters to Deptford	0	1	6
	£. 0	2	4

Present Expense for Package, under the Management of the Storekeeper General's Department:

		S.	D.
Issuing	0	0	1
Wharfage	—	—	—
Lighterage, 1/3 per Ton, or, per Package, calculating 5 Packages to a Ton	0	0	3
	£. 0	0	4

THE Expense of Issuing is calculated on the pay to the Labourers of 3/ per diem, or 3*d.* per hour, supposing one man to issue only three Packages in an hour.

The calculation of 5 Packages per Ton, is considerably less than the number generally comprised in the Ton measurement.

The RESULT therefore, is as follows:

		S.	D.
Former Charge for Shipping, per Package	£.0	2	4
Present Expense per Package	0	0	4
		S.	
Saving to the Public on each Package Shipped	—	2	—

or, 600 per Cent.

A similar charge was formerly made for each Package landed, and a saving to the same amount now takes place.

There were also three other Scales of Charge for shipping and landing, varying from 2/6 to 3/6 per Package, but the comparison is made with the lowest, viz. 2/4 per Package.

Note:—The Storekeeper General's Department was discontinued as a separate department from the 25 March 1820; from which time the business of the department was transferred to, and is to be carried on under the immediate direction of the Treasury.

Previous to the transfer, an inquiry took place as to the number of Persons whose services would be required to conduct the business in Great Britain; and the Persons included in the Return as employed in Great Britain, were considered to be absolutely necessary for that purpose. The number of Labourers vary of course from time to time, according to the nature and extent of the immediate and current business.
